Instructor Training

Forklift instructor courses for companies wishing to carry out their own operator training in-house.

- 10 day courses for certificated operators
- 5 day re-reg courses for qualified instructors
- Instructor Assessment to audit in-house instructors

Cranes & Slings

Training courses on the safe and effective use of remote, pendant and cab controlled cranes, as well as the slinging of loads. Courses include:

- Electric Overhead Travelling Cranes
- Jib and Hoist Training
- Lorry Mounted Cranes
- Slinging
- Glass Attachments

Access Equipment

Mentor offer the full range of nationally recognised and approved Access Platform and Mobile Scaffolding Tower training courses.

Operator training for all experience levels, covering the safe and effective use of all types and sizes of MEWPs and towers. Specific courses are also available for managers who oversee their use.

Courses can be delivered at any suitable customer location or at one of our training centres via our regular **open courses**.

Safety Management

Specialising in Workplace Transport, our Safety Management courses focus on ensuring legal compliance and reducing the risk (and expense) of accidents, injuries and damage. Our suite of courses includes:

- Managing Forklift Operations
- Safely Working with Lift Trucks
- IOSH Managing Safely & Refresher
- IOSH Working Safely

We also provide a full range of advisory services, including bespoke training packages, site audit and risk analysis and reporting.

Specialist Training

We deliver a number of courses for those using specialist equipment/vehicle types or carrying out high-risk tasks:

- Manual Handling
- Vehicle Banksman & Public Highway Banksman
- LGV Shunter
- Tow Tug
- Abrasive Wheels
